

AWARENESS TRAINING WORKSHOP

After this introductory workshop, you will have a basic understanding on how to protect your company's assets and intellectual property to secure your competitive stand in the market.

\$4.24m¹

AVERAGE COST OF DATA BREACHES FROM CYBERESPIONAGE

VULNERABILITY & RISK ASSESSMENT

OF DATA BREACHES INVOLVED HUMAN BEHAVIOUR

Understand & eliminate the weakest links from within your organisation.

In the first stage we analyze and consult on existing processes tied to human factor vulnerabilities.

In the second stage of our experts analyze and find your systems (hardware and software) that are vulnerable to hackers. We then mitigate and eliminate the most serious vulnerabilities.

PEN TESTING: IDENTIFIKATION & BEHEBUNG

In this Phase, we conduct several ethical hacking attempts to your systems to identify remaining weak spots and close them.

We scan the dark web to see if your data has been leaked in the past and sold by bad actors.
